No. 9, HUMMUM STREET, FORT, BOMBAY.

H. H. THE NIZAM'S GUARANTEED STATE RAILWAY Co., Ld.

ADVERTISING AT RAILWAY STATIONS.

THE PROPRIETOR of the *Bombay Gazette* Press, having leased from the NIZAM'S STATE RAILWAY COMPANY the exclusive right of advertising at all the Railway Stations belonging to the Company, is prepared to contract with parties desirous of posting notices or advertisements on the lines.

The Cantonment of SECUNDERABAD, as is well known, contains the largest military garrison in India,—a garrison comprising over 5,000 British and native troops. Contiguous to it is the Cantonment of BOLARUM, garrisoned by two regiments and one battery of the Hyderabad Contingent, all officered by Europeans. South of Secunderabad, about 4 miles, are the suburbs of Hyderabad, containing the Nizam's regular troops, about 15,000 in number, officered mostly by Europeans—besides a large civil population. It would manifestly be advantageous to firms to advertise at the stations on the above railway, the most important of which are SECUNDERABAD, HYDRABAD, GANGAWARUM, and TANDUR.

The announcements may be in English or in any of the NATIVE LANGUAGES.

INSURANCE COMPANIES, SHIPPING COMPANIES, HOTEL-KEEPERS, MERCHANTS, TRADERS, and others who wish to force their business on the notice of the public, all alike value the privilege of *Railway Station Advertising.*

There is no reason why the privilege should not be also specially valuable to Advertisers in India looking to the great and increasing number of Native Railway Passengers on the two trunk lines on Western India. Native Merchants, Traders, &c. seeing that they have the privilege of advertising in their own language, would find the publication of their announcements at Railway Stations an infallible means of extending their business.

Advertisers can select the Station at which they wish their Placards posted, and may advertise for any period that may be agreed on. The charges have been fixed on an extremely *moderate scale* to encourage Advertisers to make a liberal use of this new means now offered of making announcements known to the public.

Placards, according to the taste of Advertisers, may be printed at moderate charge in ENGLISH or any of the NATIVE LANGUAGES at the *Bombay Gazette* Press. Estimates on application.

RATES.

Board not exceeding 4 feet long and 2 feet broad Re. 1 per month. For every additional square foot annas 2.

Thus a firm exhibiting a board, say 4 square feet will have the advantage of having their business advertisement read by thousands of Passengers on one station platform for the trifling monthly expenditure of Rs. 1. Parties advertising on six Stations or more will be allowed a discount of ten per cent. twelve Stations or more, twenty-five per cent.

The boards to be delivered at the *Bombay Gazette* Office, whence they will be sent by the Lessee to the various Stations selected by the Advertiser. In the event of the contract terminating, the boards will be brought back to Bombay at the expense and risk of the Advertiser.

Special arrangements for long periods.

For further particulars apply to the Manager of the "Bombay Gazette" Office, Esplanade Road, Fort.

EPPS'S COCOA.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately-flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us, ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—See article of the *Civil Service Gazette.*

DR. J. COLLIS BROWNE'S CHLORODYNE.

THE ORIGINAL AND ONLY GENUINE.

ADVICE TO INVALIDS.—If you wish to obtain quiet, refreshing sleep, free from headache relief from pain and anguish, to calm and assuage the weary sobings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the Profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880, to J. T. Davenport, Esq., 33 Great Russell-street, Bloomsbury, London. "Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and lodging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy and as a general sedative; that have occurred under our personal observation during many years. In Cholera& Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is A DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST TO PRESCRIBER AND PATIENT ALIKE. We are, sir, faithfully yours Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

CAUTION.—Vice-Chancellor Sir W. Page Wood states that Dr. J. Collis Browne was, undoubtedly, the Inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which, he regretted to say, had been sworn to.—See "The Times," July 13, 1864.

Sold in bottles at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne' Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Beware of piracy an imitation. Sole Manufacturer—J. T. DAVENPORT T. 33. Russell's Street Bloomsbury; London.

PAINS IN THE BACK, GRAVEL, LUMBAGO, GOUT, RHEUMATISM, DISEASE OF THE KIDNEYS AND BLADDER, STRICTURE, &c.

DR. DE ROOS' COMPOUND RENAL PILLS

Are a safe and speedy Remedy for the above dangerous complaints, Discharges and Diseases of the Urinary Organs generally, which too frequently harass the sufferer over the best years of life, and end only in an agonising death. For weakness across the loins, sandy or other deposit in the water, and in all cases of renal or urinary disturbance, they are, indeed, unrivalled. They correct acidity of the stomach, promote the functions of the liver and kidneys, thereby preventing stone in the bladder, &c. Many complaints, long supposed to be nervous, often arise solely from contamination of the blood with certain impurities which should have been carried off by the kidneys. Thousands of testimonials from grateful patients attest their marvellous efficacy. In packages, 2s. 9d. and 4s. 6d.

DR. DE ROOS' PILULÆ VITÆ, OR VEGETABLE LIFE PILLS.

The most wonderful Pills in the world for Biliousness and all Disorders of the Liver, Stomach, and Bowels. Their action is mild yet effectual; they do not gripe or purge, and for habitual costiveness, loss of appetite, disturbed sleep, harassing dreams, wind, indigestion, sick headache, furred tongue, unpleasant taste in the mouth on rising in the morning, sallowness, scurvy, &c., they are of unexampled efficacy; and being prepared solely from the vegetable kingdom, may be taken by the most delicate of *either sex*, equally with the robust, merely regulating the dose according to the printed directions accompanying each box.

Those who are subject to occasional attacks of Biliousness instead of resorting to the old-fashioned blue pill and nauseous black draught, will do well to keep a box of these Pills by them, and never leave home without them; an attack may thus be nipped in the bud by taking a dose or two, which, if allowed to run its course for a few days, would probably almost completely prostrate its unhappy victim. Sold in boxes at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s.

DR. DE ROOS' WORLD-FAMED GUTTÆ VITÆ, OR LIFE DROPS.

The Great European Remedy for Spermatorrhœa, Exhaustion, Nervousness, Debility, Incapacity, Loss of Memory, and all those diseases for which Mercury, Sarsaparilla, &c., are not only employed in vain, but too often to the utter destruction of the sufferer's health. To the people of India, and similar enervating climates, as also all those who by indiscretion in early life, have ruined their constitutions, this miraculous life-reviving tonic will give, as it were, a new existence. This medicine strengthens the vitality of the whole system, gives energy to the muscles, speedily removes nervous fears, renovates the impaired powers of life, and gradually invigorates the most shattered constitution. Equally adapted for the studious and sedentary; the aged and infirm; the nervous and debilitated; as also for delicate females and weakly children. All sufferers from loss of appetite, nervous headache, lassitude, and despondency—too often accompanied with suicidal thoughts—should make immediate and fair unprejudiced trial of this wonderful medicine, which is daily effecting the most remarkable cures in patients who had been given up by the faculty. In all cases of nervous and functional debility (arising from whatever cause), it is truly unrivalled. To married persons especially, this preparation will prove invaluable, giving strength and vigour in place of lassitude and incapacity.—Price, 11s., or four times that quantity, 33s. per bottle, of all the principal Merchants in India.

Purchasers are particularly requested to see that every package of Dr. De Roos' Medicines bears the British Government Stamp, with the words, "WALTER DE ROOS, LONDON," impressed thereon in white letters on a red ground, without which none can possibly be genuine.

EYESIGHT!

THE necessity for proper testing of the sight before ordering Spectacles cannot be overrated. We have the highest medical authority confirmed by daily experience that imperfect glasses, together with the haphazard plan of selection generally employed, are frequent causes of irremediable injury to the sight, and as no present economy can compensate for such a loss, it behoves all to be cautious how they are tempted to use the common Spectacles now so generally sold by those who keep an ill-assorted collection just to complete a miscellaneous stock.

We make this department of our business a speciality, and we claim to have the largest and most complete stock in India. Our Opticians being thoroughly practical men, we can guarantee the correction of the defects and irregularities of the sight by optical means.

DR. A. MENIST'S PERFECT PEBBLES

Have always been and always are by a very long way the best procurable, and owing to the present favorable rate of exchange, we have been able to reduce their prices, which though very little in advance of other Houses *the slightly extra cost is more than

BOMBAY CIRCULATING LIBRARY.

SUBSCRIPTIONS FOR 1891.—*Continued.*

Subscriptions for 1891 must be remitted the latest to reach this office by the 25th November, 1890.

Arrangements can be made to send the weekly papers direct from England to addresses of subscribers in India, provided they are permanent residents in one station, and subscription is paid for the whole year in advance. A reduction of one rupee per annum on each paper will be allowed for the weekly papers sent direct from London to subscribers, in the mofussil and two rupees on each paper marked thus :* for example, the amount of yearly subscription to be paid for the "Academy" will be Rs. 13 instead of Rs. 14, and for the "Queen" Rs. 32 instead of Rs. 34. Under this arrangement, however, we cannot be held responsible for any loss in transit by post.

The monthly magazines and reviews are received in cases by mail steamers in Bombay and reposted soon after arrival, but by payment of an additional subscription of Rs. 4 per annum on each magazine or review, they can be ordered out by post *viâ* Brindisi, which will entitle a subscriber to receiving them about 10 or 12 days *earlier* than those received in cases. By the payment of this extra subscription a subscriber can also, if he wishes, have his magazines sent to him direct from London to his address, *subject, however, to the conditions and risk mentioned in the preceding paras.* To arrive at the rates for the months supplied by post *via* Brindisi, it might be stated as an example that the yearly subscription payable by a subscriber in Bombay taking the "Contemporary Review" will be Rs. 22, and by a subscriber in the Mofussil taking the same "Review" Rs. 24.

Residents in Calcutta, Madras, Allahabad, Lahore and Poona, where we have Branches, will be supplied with the weekly papers at "Bombay" rates on applying to the respective branches. The monthly magazines and reviews can also be obtained from our Branches on the payment of the additional rupee per year over the "Bombay" rates on each magazine or review.

NOTICE.—Orders will be booked on receipt of subscriptions payable by Money Order or draft on any Indian Bank to the Manager, Bombay Circulating Library.

NOTICES.

IMPORTANT NOTICE.
HUBBUCK'S PATENT WHITE ZINC PAINT.

TO Architects, Contractors, Dock Companies, Mill Owners, Railway Companies, Ship Owners and all who are desirous of obtaining, a reliable and durable Paint, THOMAS HUBBUCK AND SON (the original Patentees of White Zinc Paint) beg to inform the above that "HUBBUCK'S GENUINE PATENT WHITE ZINC PAINT AND OILS" can always be obtained of the undermentioned well known Firms in Bombay. This Paint has successfully stood the test of all climates for many years, and has an ever increasing demand; it is far superior in pureness of colour, in body, in fineness, and lasting properties to any other Paint; retains its color, and when mixed with HUBBUCK'S PALE BOILED LINSEED OIL does not crack or blister, and is not effected by atmospheric changes (viz., salt water, or gas). THOMAS HUBBUCK AND SON knowing the importance of such a Paint to the above, trust their Friends will continue to use this world-renowned HUBBUCK'S PATENT WHITE ZINC PAINT, the quality of which never varies.

HUBBUCK'S PALE BOILED LINSEED OIL.

THOS. HUBBUCK & SON desire to call attention to their special PALE BOILED LINSEED OIL. This OIL is paler than Raw Linseed Oil and therefore does not discolor White or other delicate colors. By their patent process all the fatty matter (which renders Paint non-drying and sticky) is extracted, making the Paint mixed with this Oil dry quickly with a perfectly hard and smooth surface, prevents blistering, and is therefore consequently much more durable. This Oil has been successfully in use for many years in China, Japan, the West Indies, the Straits Settlements, Burmah, &c. One trial will show the importance of this Oil in a climate like India, and will cause it to become in general demand through India. THOS. HUBBUCK & SON ship only GENUINE OILS and TURPENTINE, and therefore, trust their friends will see when ordering HUBBUCK'S PAINTS that they also get HUBBUCK'S GENUINE OILS and TURPENTINE. Good Paint is destroyed by using an inferior HO.

A RUSSIAN cavalry officer has conceived the eccentric notion of making a tour of Europe on horseback, for the purpose of interviewing all the celebrated personages who will consent to converse with him, and since he carries a phono raph with him for the purpose of retaining the conversations he engages in, to be repeated later on for the edification of his countrymen, no doubt the traveller will find plenty of notoriety-seeking people who will be only too pleased to further his plans and favour the Russians with their opinion. The gentleman does not (says the London correspondent of the *Manchester Courier* intend to visit England.

There will also be in connection with the fair a *Harikirtan* at 8 o'clock to-night, and fire-works will be let off on Monday night. The public are invited.

EGYPT AND THE NILE.—Messrs. Cook and Son have arranged a series of special tours from Bombay to the First Cataract and back—a forty-five days' trip, in which visits to the Cairo, Thebes, Luxor, Assouan, and other places are included. For a little over a thousand rupees the intending tourist is conveyed first class by the P. and O. from Bombay to Ismailia, and by steamer and train throughout the entire trip, hotel expenses, and all but the cost of the excursions round about Luxor and Cairo.

MUSIC AT THE YACHT CLUB.—The Band of the Marine Battalion will play the following programme of music at the Royal Bombay Yacht Club, this evening, at 5-45 p. m. :—

March	Noll Gwynne — I. Riviere.
Overture	Flotte Barsche — Sippa.
Grand Selection	The Bohemian Girl — M. Balfe.
Valse	The Gondoliers — P. Bucalossi.
Concert Polka	Flying Moments
Intermezzo	Moonlight — Boggotti.

GOD SAVE THE QUEEN.

DESTROYING TREES.—Inspector Stanford yesterday charged Bapoo Nana, with stealing some banyan tree leaves, said to be worth four annas, before Mr. Shewshunker Govindram, at the Esplanade Police Court. The inspector informed his Worship that the valuation of the leaves was not to be taken into consideration, but the destruction to the trees on the Esplanade occasioned by the repeated practice of the prisoner who had been placed in this court on a previous occasion for a similar offence. About 6-30 a. m. yesterday morning the accused was seen amongst the highest branches of a banyan tree, on the Cruickshank Road, by a peon of the Executive Engineer's Office, breaking off the twigs and stowing them away in a large gunny bag, which he had suspended over his arm. He was taken in custody, and handed over to the police. Prisoner, pleading guilty, was convicted and sentenced to pay a fine of Rs. 10, with the alternative of one week's rigorous imprisonment.

EXCITING CHASE AND CAPTURE OF A THIEF.—Whilst a Hindoo, named Gunnoo Kundoo, who described himself as a muccadam in a mill and a resident at Elphinstone Road, was standing near a shop on Thursday, at the Mombadevi Tank Road, where he had gone with Rs.59 in cash intending to purchase some gold leaf he suddenly became aware that he had been relieved of the amount, which he had tied in the corner of his handkerchief. On turning round, however, he saw a Mahomedan making off with the money and immediately pursued him. The fugitive was overtaken, but succeeded in releasing himself from the grasp of his captor. A police sepoy who happened to be approaching from the opposite direction then met the thief and secured him. The prisoner who gave his name as Aga Jan Esmal was yesterday charged before Mr. Shewshunker Govindram, at the Esplanade Police Court, by Inspector Hack, with the theft of the money. The prisoner, who had suffered two previous convictions, was convicted and sentenced to undergo nine months' imprisonment, with hard labour.

ADDITIONAL SCHOLARSHIPS.—The Eurasian and Anglo-Indian Association of Western India with a view to encourage, as far as it is able, higher education among the community it represents, has we are informed, decided on granting three scholarships this year. Their values are Rs. 20, Rs. 15, and Rs. 10 *per mensem*, and will be given to the three scholars who score highest at the forthcoming Matriculation Examination. These scholarships will be tenable for three years, provided the holders' continue their studies in Science, Arts, Medicine, Law, or Engineering. The winner of any of these scholarships must be referred to a member of the Association ; the definition of a relative is made as wide as possible so as not to circumscribe too closely the conditions under which a scholarship may be made. Those who desire further information on this subject should apply to Mr. C. A. Cuttriss, general secretary of the Association, who will gladly supply full particulars. In addition to these scholarships the Association will also distribute the Rowland prizes, of Rs. 20 each, on the usual conditions.

CRICKET.

ELPHINSTONE C. CLUB. *vs.* RALLI BROS. C. CLUB.

TAKING advantage of a holiday, the E. C. C met the Ralli Bros. on Thursday for a return match, and, managed to avenge their last defeat by 9 runs, by a decisive victory this time by 73 runs. Play began a little after 2 p.m., and the E. C. C. having won the toss went in to bat. By 4-10 p.m. they had run up the score of 108 for 7 wickets down, Machlivala being responsible for a free and plucky innings of 45 (including two grand hits for 7), C. M. Patel 22, and Doctor 15. At this stage the cloture was applied in the hope of getting all the other side out in an hour and ten minutes left for play. As it is proved, the Ralli Bros. were all out for a very poor total of 29 in just 45 minutes. This unexpected collapse was mainly due to the splendid bowling of R. E. Mody and D. D. Powvala, the latter taking 4 wickets for no runs in two overs. Mody's medium off-breaks were simply unplayable. For the losers Chonkar and Bapasola bowled well.

The following is the full score and bowling analysis:—

NOTES FROM GOA.

(FROM OUR OWN CORRESPONDENT).

GOA, OCT. 22.

WHEN will Goa be free from the worry and anxiety of elections? The triennial period, for which the Municipal Corporation in the provinces of Salsette, Ilhas, and Bardez were appointed, will expire next month, and Government has issued orders for the elections to take place on the 23rd November.

In view of the exposition of the body of St. Francis Xavier and the Industrial and Agricultural Exhibition, which were fixed for the beginning of December, it is easy to imagine the consternation of those who intended to pay a visit to Goa on the occasion. It is believed that the remonstrances of the ecclesiastical authority on the massacre at Margaum, and his special solicitations that the country be not disturbed with elections before the exposition. It is highly undesirable to point out that the election and the exposition should take place at the same time. Either the election or the exposition must be postponed. It will be interesting to watch whether the Governor General or the Patriarch Archbishop will win the day.

BOMBAY PHILHARMONIC SOCIETY.

THE report of the above Society for the year ending September 30th, 1890 is as follows.—

The Society has now been in existence for three years, and the committee are glad to be able to lay before the members a report which shows that success has attended the work of the Society, and that the financial position is sound.

The committee desire to offer their thanks to those members who by regular attendance, steady work and a conscientious recognition of their duty as members of the Society, have made success possible.

The concerts given during the year under report are as follows :—

First Concert, October 8th, 1889, the Ancient Mariner, by Barnett.

Second Concert, February 18th, 1890, the Lobgesang, by Mendelssohn.

Third Concert, July 29th, 1890, the Woman of Samaria, by Bennett.

Fourth Concert, August 5th, 1890, the Woman of Samaria, by Bennett.

Fifth Concert, September 2nd, 1890, the May Queen, by Bennett.

The first named of the above was mentioned in last year's report, which was an error, as the Society's year closes on September 30th.

However, twelve concerts have been given since the Society commenced work three years ago, viz., two performances of the Lay of the Bell, one of the Messiah two of the May Queen, one of the Elijah, one of the Lobgesang, two of the Ancient Mariner, two of the Woman of Samaria, and one of the Revenge.

The study of Gounod's Gallia was commenced, but the sub-committee for music found it advisable to stop the practices, and eventually decided not to give it at a concert.

The statement of accounts is submitted in the same form as for the last two years, but as the platform is paid for, the piano the property of the Society, and the library rapidly increasing, it will soon be necessary to show a capital account.

The committee desire to thank Mr. H. E. Moore, who has kindly audited the accounts.

The financial position of the Society is most satisfactory.

The balance to credit of the Society on September 30th, 1890, is Rs. 1,019-2-10, and the only liability is for a bill of Messrs. Novello for music, amounting to £33 17-8 (Rs. 497-11-4).

The Society not only commences the new year with a credit balance, but has the music of four works in the library which have not yet been performed, viz. "Judith," "Rose Maidon," "Creation," and "Bride of Dunkerron."

There have been many changes in the personnel of the Society during the year. Our splendid pianist Mr. Motaram, we regret to say, had to leave for Calcutta, but fortunately our former honorary accompanist, Mr. G. R. Johnson, had returned from the City of Palaces and was able to resume his old position, and he has carried on the duties with the same ability, untiring patience, and exemplary regularity as of old.

We are happy to say we still have Mr. Nixon conducting, and still command the invaluable services of Mrs. Wilcher and other of our leading singers ; but still the changes have been many, though where we have lost in one way we may perhaps have gained in others.

The committee tender their thanks to Mr. Pescio and Mr. Reid for having taken accompaniments at practices in times of necessity.

The Society have been greatly aided by the kindness of both H. E. the Governor and of Lieut.-Col. Collingwood and the officers of the Gloucestershire Regiment, who have allowed some members of their bands to play in the Orchestra, and the committee desire to record their thanks for the valuable aid afforded.

They also desire to offer their thanks to Herr Zimmer for kindly playing.

We shall commence the new year (exclusive of honorary members or the aid we get from the bands in the Orchestra) with 191 performing members, of whom 8 are instrumentalists who play in the Orchestra, and there are others amongst the singers who can be called on to play when necessary.

There are on the roll, in this month (October,) Sopranos 69, Contraltos 21, Tenors 39, and Bass 44, making a total chorus of 183 voices.

Unfortunately the Society can never reckon on anything like such a number performing at any one concert, but if only a large proportion of these will attend regularly each practice during the coming year, there should be a better balanced chorus than the Society has yet possessed.

There is much room for improvement in this matter of regularity and punctuality in attendance.

There appears to be an idea among the general public that unless a person is a performer or brings a performer, there is no object in his or her joining the Society. This is a mistake, and members will do well to let their friends know that the rules admit of "non-performing members," and the committee will be very glad to see an increase in the list of names of those who, though not performing themselves, still from their love of music and appreciation of the good work the Society is doing, are glad to give it their support as subscribing members.

ADDRESS TO DR. THOMAS BLANEY.

MR. SORABJEE KUVERJEE TASKER, a local Persian poet, who has written many poems in honour of celebrities both in Europe and in India, has just prepared an address in Persian to be presented to-day to Dr. Thomas Blaney. The address, a translation of which has been furnished to us, begins by extolling the works of the Creator ; and then in the words of the poet, or rather of the translator, it goes on :—"Having sung so far, I now began to sing the praises of one of the learned doctors of the present time, one who has been highly esteemed by the erudite of the day in all quarters." The writer then launches forth in praise of the doctor's ability in curing the most difficult diseases, comparing him to "Lukman, the master physician ;" and goes on further to pay a tribute to the doctor's benevolence as follows :—"If this learned and astute gentleman gets a most difficult case, either at a mansion or at a low humble cottage, he, without any regard for distinction, promptly relieves the patient from his torturing state by his keen intellect and profound knowledge." The address next deals with his services as Coroner and the many duties which have devolved upon him as a public man. "Thus," the address goes on, "by struggling hard day and night for the welfare of the public, he has eradicated all the elements detrimental to the happiness and comfort of the people." Referring to his charities the poet says :—"Not only will the grateful remembrance of his noble charities be preserved by this generation, but also his name and his body will emit sweet fragrance of his sweet deeds till the day of eternity." The address terminates with a prayer for the preservation of the doctor's health and life. "Bless him," it says, "bless him with the same intellect and wit which characterized Shah Khushro and bestow on him that same magnificence and those fleet horses to ride which that great Emperor possessed."

LAWRENCE & MAYO,

(OPHTHALMIC OPTICIANS.)

SPECTACLES to benefit the sight must be exactly adapted for correcting the particular defect for which they are designed.

The first important step, therefore, is to get the refraction accurately defined, and all necessary measurements taken. Spectacles are then prepared specially, in accordance with the requirements of each case, and it is only when thus precisely adapted, that beneficial effects can be relied upon.

Astigmatism, a common enough complication, can only be corrected in this way. Ordinary spectacle vendors never attempt it, or at most can forward an oculist's formula to Europe. In our own Factory, any kind of lens can be cut, at a few days' notice, whether spherical, cylinder, both combined, or bifocal.

COMMERCIAL INTELLIGENCE

BOMBAY MARKET REPORT.

FRIDAY EVENING, OCTOBER 24.

BUSINESS generally has been quieter again since the date of our last report, a native holiday which fell yesterday having further conduced to inactivity. Less has been doing in Cotton both for ready stuff and in arrival contracts; and Seeds have been taken to only a moderate extent for export. Wheat, as an exception, has been active on most days in a firm market, and at some further advance in prices. Exchange has varied in tone from day to day and rates have fluctuated to the extent of 5-16d. in Bank Bills, closing this evening ¼d. below last Friday's quotations, both for Bank and Private Paper. Money continues easy, the Bank of Bombay rate remaining at 3 per cent. Government Paper is a shade lower at 103½ for Four per cents. Freights are steady, but with not much enquiry for tonnage in any position. Transactions in imports have been upon a rather smaller scale, but the late improvement in the present position and future prospect of the market is sustained.

MONEY.—A further considerable increase of 40½ lakhs brought the Presidency Bank's Cash Balance at the close of last week to 486½ lakhs, the figures given in the Statement offering about the same points of comment as those presented a week previously, and showing little change in the monetary situation from that which has lately been apparent. There was again a large increase in Private Deposits, while Bills Discounted had increased to about the same extent as in the preceding week; but there was a larger diminution in Loans, say from 6½ lakhs, and the net falling off in the trade demand was rather more than disclosed by the previous Return, at some 34 lakhs. Government withdrawals had been upon a much smaller scale than in the week before; and the amount held in Government Securities had been diminished by the realization of some 12 lakhs. The minimum rate of the Bank of Bombay remains at 3 per cent. per annum.

EXCHANGE opened a trifle firmer last Saturday morning, and was steady throughout the day at a slight advance on the previous day's rates. Bank Demand, for the mail, was placed at 1s. 6 11-16d., and for to-morrow's mail, at 1s. 6¾d., and at 1s. 7 1-16d. for Telegraphic, for future transfer, business was done to a fair extent. Few Merchants' Bills were offering. The tone of the market was weak on Monday, and rates were down 1-16 to ¼d. from Saturday's closing quotations. Scarcely any business transpired, however, beyond a transaction between Banks early in the day on Demand at 1s. 6 11-16d. On Tuesday we opened with a drop of about ¼d. from Monday's closing rates, and business was done in Mercantile Bills, at 1s. 6 13-16d. ready, 1s. 6 15-16 and 1s. 7d. for November, and 1s. 7 1-16d. and 1s. 7¼d. for December delivery, for three months' sight Credits. A steadier feeling, however, set in later, and Credits, ready and forward, closed 1-16d. higher. Business between Banks was again reported in 60 days' sight and three months' sight, at 1s. 6¾d. and 1s. 6¾d. respectively, for ready delivery. The steadier tone above referred to continued on Wednesday, but with very little business passing in either direction. Merchants' Bills were very scarce, and there was scarcely any demand for remittance. Some demand, at 1s. 6 15-16d., for forward delivery, was done between Banks; and business in Telegraphic, for March transfer, also between Banks, at the same rate, was reported. The Banks were closed yesterday, for the *Dasera* holiday, and on reopening this morning the market was weak in response to much lower quotations for Silver from London and New York, and rates dropped 1-16d. Later, however, a recovery took place, and we close at the morning's opening quotations. Business was reported between Banks at 1s. 6¾d. for Demand, and 1s. 6¾d. for three months' sight; and some three months' sight Credits were placed, for January delivery, at 1s. 7 3-16d. and 1s. 7¼d. We quote ready rates at closing:—

Bank Bills	on Demand	1s. 6¾d.
Do.	Telegraphic	1s. 6 3-8d.
Do.	3 months' sight	1s. 6 21-32d.

GOVERNMENT PAPER.—Except that the November account rate for Four per cents. was quoted 1-16 per cent. higher, at 103½, there was no change in the market at the close of last week, the feeling having remained quiet but steady at last Friday's prices of 103 3-16 for cash, and 103 for this month's settlement. There was no change on Monday, the market having been quiet but steady at Saturday's sales of 103 3-16 for Fours for cash, 103 for the coming settlement, and 102⅞ for the November account; but at the close there were buyers for Money at our quotation. The market was almost without movement again on Tuesday. Fours for cash were quoted at one time at 103⅛; but at closing they had recovered to 103 3-16, while for the coming settlement 103 remained the quotation, and 102⅞ for the end of November account. The following day the feeling was rather weak than otherwise, and a decline of 1-16 per cent. in the rate of Fours for Money was established, 103⅛ having been the closing quotation. For Account prices were unaltered, 103 having been named all day for the coming settlement, and 102⅞ for that at the end of next month. On reopening to-day after the native holiday, the market was quiet in tone, and remained so throughout the day, no change in rates having taken place in any position, and we close at 103⅛ for Fours for Money. The other denomination is quoted ¼ per cent. lower than it was a week ago at 106.

Five per cent. Municipal Loan is unaltered at 104¼. Port Trust Bonds are also unchanged at 99½.

SHARES have been a quiet market, with some enquiry for Cotton Mill and Press Scrip, and Bank shares, but without much change in prices generally, the movement which has taken place since last Friday on the principal line of Cotton Mill Shares having been almost as much in favour of buyers as of sellers: compared with our quotations of a week ago, we note an advance of Rs. 20 in Morarji Gokaldas Mill shares; of Rs. 15 in Ripon; of Rs. 10 in Bombay United, Coorla, and Gordon; and of Rs. 5 each in Oriental, New Great Eastern, Jevraj Balloo, Howard and Bullough, and Empress; and a decline of Rs. 25 in Jubilee, of Rs. 10 each in Lord Reay, Queen, and Maneckjee Petit; and of Rs. 5 in Hindustan and Imperial. In Press shares we note an advance of Rs. 15 in Colaba, Rs. 10 each in Prince of Wales and Volkarts, of Rs. 7½ in New Berar, of Rs. 5 in Fort, and of Rs. 2½ in Bombay Cotton. Kemp and Co. and Treacher and Co. are Rs. 5 down, Bank of Bombay shares have advanced Rs. 7½ per share.

IMPORTS.

PIECE-GOODS.—Last week's sales for staple Grey Goods have been generally sustained, and the position may be called unchanged. Dealers have been willing sellers at previous quotations, and up-country buyers have shown every disposition to supply their wants at current prices. The downward course of sterling Exchange has moreover tended to assist the market. Stocks are ample, and forward indent business is only on a moderate scale. *Bleached, Dyed, Turkey Red,* and *Printed* Goods are without change in price or position. The clearances from the bazaar were less than for the previous week at 2,700 packages, the *Dassera* holiday having intervened. About 2,000 bales of *Local Goods* changed hands, the market for these also being quite unchanged.

YARNS.—The market has continued steady for *Imported Twist* at previous prices; but only a moderate business has transpired. Sales of *Bombay Spinnings* reported from China for the week aggregated 3,000 bales, with Exchange the same as it has ruled for some time past. Rates at Hongkong are weakening, and spinners are consequently more willing to do business at current rates, and some of them have even accepted some reduction in low and average makes. We call the market dull at closing at the following official quotations:—

Twist...	...No. 6s Mule.	As. 4½	Per lb.
„ ... ... „	8s „	„ 4¾ to 5	„
„ ... ... „	10s „	„ 4¾ to 5 3-16	„
„ ... ... „	12s „	„ 4¾ to 5¼	„
„ ... ... „	16s „	„ 5 11-16 to 6½	„
„ ... ... „	20s „	„ 5¾ to 6¾	„
„ ... ... „	24s „	„ 6¾ to 6 7-16	„
„ ... ... „	30s „	„ 7¼	

METALS.—A large business has been done in *Copper* during the past week, and the price has advanced 8 to 12 annas per cwt. in a firm market. *Yellow Metal*, on the other hand, has been taken to only a small extent, and prices are unchanged, the feeling being steady. *Iron* has been in moderate request, but the market for *Swedish* has been quiet at a decline of Re. 1; British being firm at an advance of 8 annas.

COAL.—A large business has been done during the week, principally in Davison's West Hartley, some 1,500 tons of which have been placed for November-December, and December-January shipment, at Rs. 16½ per ton.

EXPORTS.

COTTON.—Business in this staple has been upon a smaller scale during the past week, both as to purchases of ready old stuff by local spinners, and in contracts for Cotton f the new crop by European operators, than during the previous six business days. Transactions were very few on last mail day, and the tone of the market quiet; and the new week brought no increase of business, though the feeling was steadier, and became firm on Tuesday, but with only a moderate business passing. Thereafter the tone became quiet again, with next to nothing doing, a native holiday yesterday adding to the dulness. The principal purchases of old Cotton during the week have been of Julgaum, at Rs. 162-79½; Khangaum, at Rs. 180; Pachora, at Rs. 661-71; Bhownugger, at Rs. 174; Veraval, at Rs. 162-75; Wudwan, at Rs. 178; Bengal, at Rs. 142½; Compta, at Rs. 160; Dharwar, at Rs. 173; and Westerns, at Rs. 165. In Cotton of the new crop, some contracts for "Good" Bengals for January delivery, at Rs. 155½-7, are reported. The market closed steady this evening with contracts for New Broach (in which business is being done between native operators), quoted Rs. 2 to Rs. 3 higher, but other quotations quite unchanged.

It appeared from the weather and crop reports by wire made known on Monday that 46 cents of rain fell at Cawnpore in the Bengal circle, during the latter half of last week, bringing the total fall up to over 40 inches, or 11½ inches, above the average to the end of this month; while at Beawar, in the same circle, 6½ inches below the average had been registered. No further complaint, however, came from the former district; and in the latter the picking of the first sowing had partially begun. In the Oomra circle, picking had commenced at Khangaum, Barsee, and Dhulia, and was general in the Julgaum district, while arrivals were expected early at Oomrawattee itself. At Broach, the flowering of the plants was advanced, and, the mornings being cold and dewy, the crop was doing well; as was also the case under similar favouring conditions in the Dhollera circle generally. The late rain had proved sufficient at Hubli, in the Dharwar circle, and the cotton plants were flourishing, prospects generally being good. The telegraphic news to hand yesterday showed no change in the position of the crop. Bengal Cotton was arriving in small quantities both at Agra and Cawnpore, and picking was progressing in other districts of the circle. Picking had commenced at Nagpore; and in the Oomra circle generally it was going on, in cloudy weather in some districts, but with no rain. Throughout the Broach and Dhollera circles the weather continued bright and seasonable; the plants were flourishing and their flowering advanced, and in some of the Broach fields they were showing bolls.

The following are to-day's quotations for full-pressed cotton, with its equivalents in Sterling, Cost, and Freight to Liverpool, *via* Canal without commission, *viz*:—

WHEAT.—This market remained strong in tone, and with a considerable business passing to the close of last week, and on Monday, the demand from exporters continuing, an advance of 1 anna per cwt. was established in Pessy of both qualities, at Rs. 4-9-0 and Rs. 4-8-0 per cwt., respectively, other descriptions being unchanged in value. The strong feeling continued on the following day, with a good deal doing, but no further change in rates took place; and thereafter, though the tone remained firm, there was a good deal less business passing.

SEEDS.—Only a moderate business for export has been passing in this market, but the tone has been steady throughout the week. A decline of 8 annas to Re. 1 per candy has taken place in Gingelly, at Rs. 40 for White, and Rs. 38½ for Mixed; but other quotations are quite unaltered.

MR. GLADSTONE ON THE IRISH QUESTION.

LONDON, Oct. 24.

Mr. Gladstone, speaking at Mid-Calder yesterday, said it was not proposed to repeal the Union or remove Irishmen from the English Parliament, but to delegate to Ireland the control of her local affairs.

He advocated the principle of "one man one vote," and a Parliament of shorter duration.

Mr. Gladstone then said that the judgment of the masses on great questions was more enlightened than the judgment of the educated classes.

He was disposed to support the eight hours' movement in the case of miners, but not a general Bill for the same until the question had been carefully examined into.

THE POONA VOLUNTEER RIFLE ASSOCIATION.

(FROM OUR OWN CORRESPONDENT.)

POONA, Oct. 24.

The competition for the series of prizes offered by Captain Marriott, aggregating one hundred rupees, to members of his company, took place to-day, but as only fifteen competitors entered the prizes for this match will be considerably reduced in number. Two ranges were fired at, namely, 200 and 500 yards, with seven shots at each distance. The scores made were on the whole rather poor, the best among them being Volunteer Rix's 44. The only matches of the meeting, which remain to be completed, are the Meakin Challenge Shield and the Consolation Stakes. The local matches of the Bombay Presidency Rifle Association will commence on Tuesday next.

A VARIETY ENTERTAINMENT IN POONA.

(FROM OUR OWN CORRESPONDENT.)

POONA, Oct. 24.

One of the pleasantest entertainments ever given under the auspices of the Poona United Club, which sprung into existence in the early part of the season which has just closed, was that which came off last evening, at the Albert Edward Institute, when an excellent variety programme was presented. The room was, as it always is upon these occasions, well filled, and a very pleasant two hours were spent. Honorary Captain Nugent, of the Adjutant-General's Office, as President, is the very life and soul of the new club, and he has succeeded in infusing his enthusiasm in the movement into the great majority of the members. He is ably supported by Mr. Oppenheim, the secretary, who has always taken an active and prominent part in all the social gatherings which have been held under the auspices of the club. Mr. Clifford and Mr. Priestley have also always come forward and taken their share of the work, and they have contributed in no small degree towards popularising these little entertainments which, during the season, came off with commendable punctuality every fortnight, and were known as Wednesday night "pops."

Last evening's programme consisted of two distinct parts, the first being a medley of all "sorts and kinds," and while a capital little farce formed Part II. The seven items which constituted Part I. were all interesting in their own way, in spite of the fact that there were no lady-performers in this part. Mr. Jenkins was down for the first song on the programme "the OldBrigade,' but as he was suffering from an irritating cold (and who is there in Poona who hasn't got a cold) he felt compelled to change the song at the last moment, and instead of the "Old Brigade" he gave us that sprightly and equally familiar song "Sailing," which half tempted the audience to join in the well-known chorus. After him came Mr. Millman, the talented Bandmaster of the Royal Fusiliers' Band, who treated us to an excellent solo on the violin, an instrument of which he is a perfect master. "Hope told a flattering tale" was executed by him with great expression and feeling, and he should have been recalled, but the programme as it stood was quite long enough, and the audience had to curb their desire for anything more. "Richard Doubledick" was the subject of Mr. Oppenheim's recitation, and it was very cleverly recited too. He held his audience spell-bound from start to finish, and he is always a welcome performer. Mr. Clifford, who possesses a grand and clean voice that need no forcing, sang the pretty song, "In port" in very good style, and well deserved the applause with which he was greeted. The next item on the programme was probably the one which entertained us the most. Herr Buhl, an assistant, in the splendid photographic firm of Messrs. Mokhtenteller, Hammes and Co., had the reputation of being a capital artist, and he gave us ample proof of his capabilities in his "Lightning Sketches" last night. In ten minutes, or less, and with his left hand, he dashed off a remarkably good "Landscape" in oils. The picture was painted topsy-turvy and until the canvas had been turned upside down, nobody could make out what the artist was driving at, but when it *was* turned a thunder of applause greeted the clever artist, who next proceeded to entertain us with a series of amusing caricatures ; his "grandmother," "grandfather," "mother-in-law," "sweetheart", &c., were all presented in turn, a few dashes with the pencil being sufficient to give a perfect outline of the "Punch-like" features of each. The latest style of hats and bonnets worn by the ladies of the present day were also caricatured, and we fairly roared with laughter. The banjo quintet "Escelsior," by Messrs. Millman,Bull, Ferner, Border and Southhouse, of the Royal Fusiliers, was a very good performance, and the audience insisting upon recalling the performers, they gave us a couple of lively "breakdowns," for which they were enthusiastically applauded. Mr. Priestley met with a cordial reception for his rendering of the appropriate song "To-morrow will be Friday," and it must also be mentioned that he very kindly undertook the duties of accompanist for all the preceding items.

After a brief intermission, Morton's amusing farce "Betsy Baker or Too Attentive by Half" was enacted. A temporary stage with wings, &c., had been set up for the occasion, but the available space for the purpose was so very limited that the performers necessarily laboured under very trying disadvantages, but in spite of every thing the farce went off from start to finish without any of those awkward hesitations which frequently form a distinctive feature in amateur performers. Mr. Oppenheim, as Mr. Marmaduke Mouser, was the enlivening spirit of the whole piece, and his acting was very natural and easy. His wife made a splendid "Betsy Baker," the laundress, and she acted her part in a unished style. Mrs. Clifford made a dignified Mrs. Mouser to whom Marmaduke was much too attentive by half, and considering that this was the first occasion upon which this lady had appeared on the stage she acquitted herself in a manner upon which she might well be congratulated. Mr. Tailor suited the part assigned to him (Mr. Crummy) very well indeed.

PRESENTATION TO AN ENGINEER.

(FROM A CORRESPONDENT.)

GADAG, Oct. 23.

The secretaries and managers of the Maharani Cotton Pressing Factory, a new company started by the natives of this town, convened a public meeting under the presidency of the chief director Mr. Davidas Venketdas Sowcar, in their office this afternoon, to convey their thanks to Mr. Charles Brown, their consulting engineer and Bombay agent. All the local officials, the mamlatdar, the sub-judge, the doctor, and other Native and European gentlemen were present on the occasion.

The secretaries and managers read an address prepared by them, and presented it, along with a valuable diamond ring, to Mr. Brown, who, in acknowledging it, made a suitable reply, thanking the secretaries and their local engineer, Mr. S. N. Bardes, for the aid he had received from them in discharging his commission satisfactorily.

After the distribution of the indispensable pansupari and attar the assembly dispersed.

VANITY FAIR.

(FROM OUR LADY CORRESPONDENT.)

GALWAY, Sept. 30.

One of the completest transformation scenes—exceeding even the marvellous *coups-de-theatre* of Augustus Druriolanus—may be enjoyed at small expenditure of time and money by any one who has the temerity to undertake a short fifteen hours' journey across the British Isles. The Londoner who, weary of the rush of life with its incessant fight to be first, no matter at what cost of tissue, wishes for a rest, not quite so final as described by the Patriarch Job, may easily achieve his heart's desire—he may dine at 7-30 in the Strand, and find himself at breakfast hour next morning booking brown trout in mediæval Galway—quaint old Galway with its recollections of Spain in the massive stone archways, its mouldy churches, droning mills, fussy rivers, sluggish canals, and ever-changing sea. Like a Rip Van Winkle looking backward, the Londoner in Galway will awake to the fact that centuries have been taken from, not added to the world's age, and that he grows young instead of old in the humdrumming atmosphere of this most unprogressive old town, that knows not the art decorator, nor the dealer in Japaneseries, nor the culture that is implied in draperies of art muslin and Liberty fragilities, nor the æsthetic adaptation of everything to the wrong purpose—a town that has scarcely learned the a, b, c of advertising, and where the nightmare—producing works of Willing and Partington are as yet an unknown quantity—a town without an automatic chocolate box, an organ grinder, or an extra special newsboy—in fact, notwithstanding its trams and trains and telegraphs, a town of the early middle ages. Here are the peasant women in the self-same red woollen homespuns and hooded cloaks and the men in the same grey friezes of three or four centuries ago, talking a language that to our ultra-cultured ears sounds unmelodious, not to say savage.

***

Galway is indeed a surprise to the 19th Century London mind. Jutting out here and there across the narrow zig-zag streets are the houses of the merchant-princes of the tribes, built in Spanish fashion, with carved arched doorways, mullioned windows, and sculptured coats-of-arms. But the merchant-princes have joined the majority—and their splendid palaces are let out in tenements to the poorest townspeople—the mills mostly are silent and falling into ruins, the docks are empty, and the trade has almost passed away. The Galway of to-day is the picturesque Galway of the tourist and the artist—it has practically no rank in the world of commerce. But at every turn, it has some new charm for the eye. Under an archway a picturesque group of old women are bargaining for something splendid in the muslin cap line. With their crimson skirts and blue aprons, they brighten up the dull grey walls, and one can judge by the liveliness of their gesticulations and the strength of their gutturals what an important matter is a becoming head-dress to a Connaught matron. In bygone years, according to historians who have taken interest in female fashions there were very severe edicts issued by the Galway Mayors for the suppression of fine clothing in all women except their own particular wives. In 1585 this was Court etiquette. "That no woman shall wear gorgeous apparel, but as becometh them to do, according to their calling ; and in special, they shall altogether forego the wearing of any hats or caps otherwise colored than black, and upon them they shall wear no costly hat-bands or cap-bands of old thread, the Mayoress only excepted." How very gratefully such a law would be accepted by our city womenkind of the present day.

***

Connaught ladies of the 15th and 16th centuries do not seem to have been backward in asserting their rights. Madame or Mdlle., Grace O'Malley, of Clare Island, on the coast of Galway, preached the gospel of limited marriages according to the teachings of Mrs. Mona Caird. She was the daughter of a powerful chief at whose death she became head of the Clan. Then she married O'Flaherty, Prince of Connaught, but having probably found marriage a failure on the first trial, she determined when her husband died to be more cautious of the agreements she made in the future. So her contract with Sir Richard Bourke, Lord of Mayo, was only to be held binding for a year and a day, at the end of which if either said to the other "I dismiss you" the marriage under his law was dissolved. Grace finding her second husband no more to her liking than the first, managed to get her special followers into all the castles, and then with scant ceremony gave her husband his dismissal. It is not recorded that he broke his heart in consequence. In the churchyard of Carrig-hooly, in Achill Island, the skull of this famous Irish upholder of Women's Rights was kept as a sacred relic. But alas ! for the degeneracy of these latter days, when the interests of agriculture are considered of more importance than ancestral worship. The fate which befell the ashes of the sacred cats of Egypt was the lot of Grace O'Malley's relics. A Scotch ship sailed away one night from Achill, laden with the bones of the Chieftainess and her descendents, which like the ashes of the holy animals of Pasht, were ground into manure to enrich the potatoes and oats of the canny Scot.

***

Of the men of Achill it cannot be said that they worship at the shrine of the god Fashion. Hats are never worn on the island, but an Achillman visiting the mainland found it necessary to conform to the prevailing taste for headgear, so he bought a hat which since his return to the island, is borrowed and worn by each inhabitant on his rare visits to Connaught. Of the thirteen tribes of Galway there is very little trace left in the town. The Burkes, Lynches, and even the ferocious O'Flahertys, having been evidently ousted by alien traders from most of the business of the town. In the fine old Church of St. Nicholas, too, their names are rare ; but this is probably because the older Irish families belong to the Catholic Churches of which St. Nicholas has been the protestant since the Reformation. There are several quaint old monuments with uncommon inscriptions. One Geoffery O'Hara mentions on his wife's tomb that she was an *Englishwoman*—evidently a *rara avis* in Ireland of the last century. Another bequeaths a legacy to be given in bread to 36 *poor objects* (of charity, not vertu, understood). Under the colors of the Connaught Rangers which hang in the central aisle are monuments to several officers who have died abroad, or fallen in battle. It is characteristic of the city of the sign of the ship that the regimental flags are saved from falling to pieces by being encased in a network of fine cord done by the wives of the Claddagh fishermen ; a plan which might be advantageously imitated in Westminster and other places to preserve the banners from destruction.

***

A beautiful little church of grey limestone and pink granite is being erected by the Dominican Fathers for their people in the surrounding fishing village of the Claddagh to succeed the old church which is almost in ruins. To the great grief of the peasantry their old graveyard has been officially closed. It was quite pathetic to hear the poor old women mourn that they should never sleep in the graves of their fathers—to be buried beside their kith and kin, being almost a religion with them. And certainly there was something more restful-looking in the old moss grown tombs, than in the new graveyard on the bleak mill-side. Grey old Galway standing solemnly over the restless waters illustrates admirably the saying : "Sermons in stones, books in the running brooks, and good in everything."

***

The *route* through which the railway runs across Ireland is most desolate—sometimes low and boggy for miles, then a barren craglard planted with stunted weather-beaten shrubs. Athlone is the only place that showed a sign of vitality, presumably because the military element is strong enough to resist being effaced in the general dreariness. Near Athlone is Lisholf, the village which Goldsmith immortalized under the name of Auburn. Also near Athlone is Garbally Castle, the residence of the Earl of Clancarty, immortalized after a different fashion by Lord Dunlo. Further on the road from Dublin is Ballinasloe of wide renown for its horsefairs and not far from it is Aughrim, the famous battle-field where was killed St. Ruth, the General commanding King James's Irish adherents, against King William's troops under Ginkle. In an old copy of the *Evening Telegraph* there was published a very sweet poem by Arthur Gerald Geoghegan, telling a soldier's fate in the battle :—

After Aughrim.

Do you remember long ago Kathaleen ?

When your lover whispered low,
Shall I stay or shall I go, Kathaleen ?

And you answered proudly "Go !
And join King James and strike a blow For the green."

Mavrone, your hair is white as snow, Kathaleen ;
Your heart is sad and full of woe,
Do you regret you made him go Kathaleen ?

And quick your answer proudly, "No !
Far better die with Sarsfield so
Than live a slave without a blow For the green !"

***

One of the most unusual of cheap sales by auction was held in Dublin yesterday. It consisted of Bostock and Bailey's Circus and Menagerie which besides the usual lions, tigers, and other wild animals had a separate department called the museum in which were embraced such varieties as a giant donkey standing fourteen hands, a dwarf donkey, and a tattooed pig which having fetched £10 will probably set the fashion for decorating in a similar fashion all the multitudes of present and coming porkers in Ireland. The hairless mare also having brought in £200 will probably give a fillip to the trade in Irish depilatories. Six performing dogs went for the exceedingly low figure of £14, the St. Bernard dog Strathmore realizing over fifty pounds. But the most curious part of the function was the performance of Mr. Dillon, the auctioneer and advertising agent, who, for a wager of £100, drank a share of a bottle of champagne in the lion's den.

SPORT IN THE BOMBAY PRESIDENCY IN 1890.

(BY OUR SPORTING CORRESPONDENT.)

I—RACING.

The termination of the Poona Races of 1890, practically brings to a close the Bombay Presidential Racing Season. We have as yet to see the finish of the Belgaum and the Mhow Races, two fixtures important enough in themselves to warrant mention in a review of this description, but without prejudice to the sportsmen of these centres, and especially to the gentlemen, who as stewards work so hard to make the races successful, it must be admitted that the interest they excite is purely local, and that the great body, of what, for the sake of convenience may be termed, Bombay owners, looks upon them as clearly "out of the running." The past season has been more than ordinarily interesting. In the first place, a new set of rules which had been passed by a meeting of the Western India Club, held on the 9th March, 1889, came into force on 1st January, 1890. These rules were the result of much thought and patient study bestowed on the subject of the requirements of racing in these parts, by Brigade-Surgeon A. C. Gaye, the recently-retired honorary secretary, assisted by the other Stewards of the Club. The main object of the new codification was to assimilate as much as possible the rules of the Western India Turf Club with those of the Calcutta Turf Club, and although a few differences, such as that between the two rules regarding *maidens* and those regarding *pony* racing still exist it is but fair to say that the object was attained. During the year a few alterations were made, notably that which cut out country-bred ponies, of 13-3, from running in races for Arabs, 13-2 and under, and confining them to their proper class, *viz.*, galloways 14 hands and under. This was clearly a move in the right direction, for it is preposterous to suppose that a little Arab pony of 13-2 had any chance against a huge country-bred of 13-3, the product of English parents. Another alteration in the rules which will be far-reaching in its consequences is the recent rule regarding the measurement of ponies. It will have the effect of stopping giants of 14 hands or more being passed off on a credulous public as *bona-fide* ponies of 13-3 and under. Pony racing as now conducted in the Western Presidency compares favourably with what obtains anywhere else in India. To Dr. Gaye in a very great measure is due its present standard of excellence, and had it been for this alone he would have been well entitled to the testimonial presented to him by his admiring friends, when he resigned the seals of office. The introduction of the new rules produced a sense of security among those on this side of India who for good reasons believed that the sporting public of Bengal and of those other racing centres, that owned allegiance to the Calcutta Turf Club were better treated, and their interests better looked after ; it also increased their confidence in the ability and willingness of the Western India Stewards to march with the times, and what is more, gave a stimulus to the love of the sport in quarters where it was beginning to cool. The Bombay meeting of 1890 has been generally pronounced a great success, and it has also been generally admitted that the satisfactory result was due to the labours of Dr. Gaye, who in spite of his idiosyncrasies, was a large-hearted sportsman, whose love for racing was of the purest and most disinterested kind. Few, however, will forget his piteous appeal for support, nor his warning that if the racing public of Bombay did not awake from their lethargy and if the management did not receive from the Municipality, and the Government, the countenance and support they were entitled to expect, the classical Bombay Race Meeting would have to be abandoned, and a Poona Spring Meeting substituted. This was no exaggeration, and even the success of last February has not averted the calamity for good.

Mr. Jon Le Mesurier, Dr. Gaye's successor, who has put before the public the prospectus for the next meeting with such commendable prompitude, will have to face a crisis which will tax even his powers, great as they are reported to be, to the fullest to tide over successfully. The prospectus for 1891 presents all the attractions as did the last, with an addition in the shape of a "Gaye Memorial Cup" for a race for all Arabs. But I was sanguine that it would have contained several larger prizes. Where are the purses which we were led to expect, those opulent Steamship Companies, whose receipts are yearly swelled by the shipment of horses from the Gulf to Bombay would give ? Echo answers Where ! However the prospectus is an attractive one, the conditions have been judiciously framed, and if Mr. Jon Le Mesurier plays on the feelings of owners half as well as did Dr. Gaye, we may expect four days of excellent racing, although it should take place in the malebolgic pool yclept the Flats. And now *revenons a nos moutons* as Mr. Ward observes. The last Bombay Meeting brought out a feature peculiar to racing in this presidency which was afterwards accentuated by the results of the Poona Races. It is the large number of wins which now-a-days fall to the Arab horse-dealers. Time was, and it is well within the recollection of living habitues of the Turf, when dealers rejoiced consumedly if they pulled off any event, other than the Second Dealers' Plate. All this is now changed. Here in one short season we see all the classical races in Bombay and Poona, which gentlemen sportsmen invariably won, not a decade ago, carried off by horses owned by dealers and run in their own names. Mr. Ali bin Ameer won the Bombay Derby with Baronet, and the little fancied Baltic, whom several knowing ones pronounced "to have a leg," put to the credit of Mr. Hassan bin Budder the Derby and the Governor's Cup at Poona. For this turn in affairs, three reasons, which bear the stamp of validity, suggest themselves—first, the inability of gentlemen-owners to pay large prices to secure first class animals ; second, the growing distrust of Arab form ; and, third, the influence of the bookmakers. Any one of these is sufficent in itself to explain the phenomenon, and where we find the three combined, it ceases to be anything but a natural occurrence. With regard to the first of these reasons, there is little to say. For it is patent to all, that the old class of European merchant-princes has by the vagaries of exchange and native competition been entirely eliminated. The new generation are too poor to follow in the footsteps of their ancestors, and the native millionaires have, to use a purely turf expression not been built for racing.

As to the distrust in Arab form, I dare assert that the most experienced handicapper in the country will agree, that Arabs are kittle cattle to deal with An ordinary intellect can guage the form of a waler or an English horse to an ounce, but it requires the genius of a Keyser to take the exact measure of an Arab, witness the performances of Alert, Hunaban, and others during the season. Intending buyers are apt to look to the form of the race for the Second Dealers' Plate at the Bombay meeting, to aid them in purchasing a likely one. But oh ! how often have they reckoned without their host. After a long lapse of years, 1890 produced a horse, Patna, who showed anything like form after winning this trial. Sportsmen may remember the great Ardaban whose stride was thought so much of in 1886, and for whom a glorious future was predicted. He won the Dealers' Plate in a canter, and then turned cur—he now draws a cart in Poona. He was no exception ; before and after his appearance the same thing happened. What wonder therefore that buyers are shy ? The greatest enemies of gentlemen-owners, however, are the bookmakers. "Betting," says a recent authority on racing, "may or may not be intrinsically immoral, but if it is, then undoubtedly the English character leaves much to be desired on the score of morality, for the love of betting, and more particularly of betting on horse-races is throughly ingrained in the average Britain," and I may truly add in the average native. It may, therefore, be taken for granted that we shall always have betting, but it would be well, if it were confined to the old Indian system of lotteries, or if ready money betting on the course is indispensable, to the totalisators. Lotteries flourished in the halcyon days of Indian racing. People then lost heavily to one another, but the Turf benefited by the transactions, and the money was so to speak kept in the family ; now it all goes into the bookmakers' greedy maw and neither the Turf Club nor the backer is the better for it. This argument is capable of amplification, but that were out of the scope of the present article. The season under review has been characterised in a marked degree by old and well-established stables, whose owners from a succession of successes in years past, the public came to view as the *creme* of the *connoscenti*. Mr. Ali Abdoola who presides over his own and Mr. Newton's studs and who, it was believed, possessed in Sirius, *the* maiden Arab of the day, was the heavist of losers. His best cards were trumped so persistently that a less brave man would have given way to despair. The Aga Khan's stable, despite the fact that so fine a judge of Arab horse-flesh as Aga Junghee Shah enacted the *roles* of sage, counsellor, and friend did not produce anything above second-rate form. The great Mr. Locke whose stud has dwindled down to nothing, has only been partially successful. In a word—of all the old familiar owners the only one who has secured a fair share of luck has been Mr. Nowrojee Ardashir, the sporting Parsee of Poona, who has won all along the line, in Madras, Bombay, Bangalore, Lucknow, and Poona. Mr. S. A. W., of the well-known firm of Ludha, Ebrahim & Co., has had middling luck but not such as a good, consistent sportsman as he is, deserves. A few individuals, among whom were some of the members of the once famous Parsee combination, known as Messrs C. N. C. picked up odd bits ; the rest all went to the dealers for reasons that need not be recapitulated. The Poona meeting was from an outsider's point of view a glorious success. Five days of excellent racing were provided, but it is significant that the lotteries, once the glory of the Deccan capital, filled badly. However the meeting proved a splendid send-off to Dr. Gaye, and in consideration of his services to the cause of racing in Western India, every sportsman was glad of it. The Poona course is a beautiful one, well-drained, and in every way well looked after, and under existing circumstances it must ever prove a more popular arena for races than that of Bombay.

THE PARSEE PUNCHAYET CHARITABLE FUNDS.

The last annual report on the administration of the funds at the disposal of the trustees of the Parsee Punchayet Charitable Funds shews the total amount to be Rs. 26,04,297, of which Rs. 21,63,100 are invested in Government promissory notes, Rs. 3,12,214 in Bengal Bank shares, and Rs. 93,000 in Port Trust and Municipal bonds, while the balance remained as cash in hand for the payment of current expenses. Foremost among the different funds at the disposal of the trustees is that established for affording relief to blind, disabled, and helpless Zoroastrians of Bombay in the shape of monthly salaries. During the year under report this fund provided relief for 317 persons, of whom 255 were helpless widows, and 62 men. The fund amounted to Rs. 1,13,269 ; and while the total income of it was Rs. 12,325, the expenditure was Rs. 13,282, the deficiency being made up from certain miscellaneous funds. Somewhat similar in character to the above is another fund, out of which relief was provided privately to respectable persons in reduced circumstances, to whom a certain sum is paid at intervals of six months or a year. Another important fund is that for feeding and clothing blind disabled, and helpless Zoroastrians residing in the Furdoonjee Sorabjee Parakah Dharamsalla at Chowpatty. The funds amount to Rs. 90,500 ; and its income, during the year under report, with accretions from other funds, was Rs. 3,600. The expenditure was 3,816, out of which the inmates of the dharamsalla, namely 54 men and 8 women, were fed during 195 days, while during the remaining 170 days of the year they were fed at the expense of charitably-disposed Parsees. The total cost per month for each inmate is estimated at Rs. 6-11-2.

THE CAMBAY DISTURBANCES.

The case for the prosecution against six of those who took a part in the recent disturbance, which was being heard at Cambay before Mr. Cooke, the Political Agent, as a special Sessions judge, terminated on Tuesday, the 21st inst., when Mr. Smetham, of Messrs. Chalk, Walker and Smetham, on behalf of the prosecution, summed up the evidence he had called and submitted that the charges against all the accused where clearly established. One of the most important witnesses was Lieut. Alfred Henry Roberts, of the Bombay Light Infantry.

Lieut. Roberts, examined Mr. Smetham, said : I was in command of the detachment of the regiment sent on the 20th September last to disperse the crowds of people. It consisted of 100 men, who were armed with snieder rifles and bayonets. We marched to Sajan Fallia by the Mahomedi Durwaja. In front of us were the Cambay mounted police, followed by the foot police. The mounted police consisted of seventy or eighty sowars. I rode with the fourth line of my detachment. I saw crowds of people sitting at a distance of about 200 yards from the gate. We were then on the rising ground near the Sajan Fallia. I estimate the crowd of people at from 800 to 1,000 persons. When I saw them from a distance, they were doing nothing, and were simply conversing among themselves. The mounted police first went up them ; whereupon there was some excitement among the people ; and they came out on the rising ground near the gate. The sowars hurried up to them and tried to prevent them from collecting in a body. The people became more excited and began to talk loudly. They were armed with long sticks with iron ferrules, bamboos, and native swords. The police halted, and I halted also. In less than five minutes the people began to pour a shower of bricks. I then saw the mounted police retire towards may detachment, whereupon the foot police also receded. My attention was occupied with my detachment, and I was not able to see whether any of the police were assaulted ; but bricks were flying about at a short distance from us, and they must have struck some of the police. My chief care at the time was to see to the safety of myself and my men from harm. As the police receded, the Political Agent ordered me to disperse the people, and I directed my men to make a rush upon the crowds. They did so with their drawn bayonets, but as they came on the people, who struck blows as severely that the guns and bayonets of my men were damaged and would have to be repaired. A determined onslaught being made, the people began to disperse in all directions. I saw many persons running into their houses. No attempt was made to arrest them for some time. I called back my men and told them to re-assemble. I met the Political Agent in Kowbihar Fallia, and we arrested certain persons under his directions.

Cross-examined by Mr. Vicajee : I made a report to the Adjutant General, to the colonel of my regiment, and to the chief officer of the Baroda Army the same day. When I saw the crowds sitting near the Mahomedi Durwaja, they did not appear to me to be prepared for a fight. I could see clearly that the crowds numbered eight hundred to a thousand persons. They were dispersed in a few minutes. The time was critical. The people standing on the rising ground were rioters. The native swords I saw with the people were like those used in native states, or those used by the Cambay mounted police. None of the military had died. One of my men was hurt in the hand and was sent to the hospital for treatment ; four others were struck with bricks. My men followed up for a quarter of a mile those who were running away. About ten or twelve rioters had died, and 45 or 50 were wounded.

To the Court : I know Nana Hurjee. I did not see him during the crowd. He was brought to me when arrested. He had a yellow saree wrapped round his head, which somebody pulled out. I think the first accused is Nana Hurjee.

The Court framed charges against accused under sections 149 and 326 of the Code, after which Mr. Vicajee addressed the Court on their behalf.

THE N.-W.-P. INDIGO CROP.

The final report on the indigo crop of 1890 in the N.-W.-P. and Oudh is as follows :—

"Area.—The patwaris at the time of their April tour recorded 254,986 acres under indigo this year, against 238,782 acres recorded by them last year. The Canal Department returned 198,994 acres as receiving canal irrigation up to 31st May and 228,044 acres as receiving canal irrigation at the end of July 1890. Last year the canal irrigated area of indigo at the end of May was 203,453 and at the end of July 225,245 acres. The rains from their commencement in June proved too heavy and continuous for *Asarhi* sowings, and the estimates received from zamindars for this year place the total indigo area at 290,000 acres, or about 12 per cent. less than the area of 1889.

"Condition.—The showers of March greatly helped the young crop in its first start, and it experienced little or no damage, no particular insect which usually attacks it at this stage of its growth. But on low land the crop later on suffered much from the heavy rains of July and August, and the present has been the worst season for indigo during the last ten years. The average 'condition' of the crop in each of the undermentioned tracts is this reported :—Average condition in 1890, 100 representing a full average. Doab, 44 ; Rohilkhand, 56 ; Benares, 50 ; and Oudh, 45.

"Outturn.—Last year it was estimated that 10 per cent. of the entire indigo area is annually reserved for seed, and that the average yield of dye per acre in a fairly good year is about ¼ of a factory maund. Adopting these estimates this year and applying them to the reported area and 'condition,' the total production of indigo dye for 1890 may be put at 32,000 factory maunds against 33,700 maunds estimated last year. It may, however, be remarked that the exact area reserved for seed in any year is a very variable quantity. The Behar factories depend on the Punjab and the Western districts of these provinces for their annual supply of seed, as good

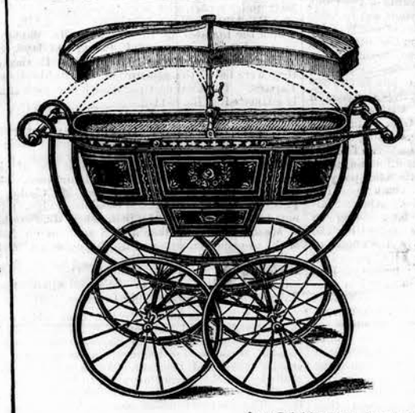
DUNKLEY'S NEW SUSPENSION PERAMBUCOT.



[PATENTED JULY, 1888.]

PRONOUNCED BY EMINENT MEDICAL MEN AS BEING

The EASIEST CARRIAGE in the WORLD!

THIS drawing only conveys in a faint degree the important and valuable advantage of this machine. It is gracefully suspended on four coiled springs from the sides of the body to the extended handles. Consequently when the Carriage is passing over kerbstones or any rough surface of the least kind, the springs are at once brought into play, and a gentle swinging up-and-down motion occurs. By this motion the most delicate infant receives the easiest form of nursing and riding combined which the mind can possibly conceive.

The Carriage is also fitted with an entirely new patent canopy, which can be adjusted to any angle. By a simple arrangement it can be placed at either side or either end.

THE WORLD'S BEST LEMON SQUEEZER

Is to the old-fashioned article what the Railway is to the Dak Gharry.

No bitter from the rind, as it acts on the pulp only. Made of glass it is kept clean as easily as a tumbler. Almost instantaneous in action, a child can use it without soiling the hands.

TO USE THE MODERN LEMON JUICE EXTRACTOR—

Set it upon a tumbler as shown in sketch, cut the lemon in half, place the half lemon upon the points and press downwards, slightly twisting it. The ribs easily enter the pulp, and the juice *pours* down through the openings into the tumbler. The openings are so small that the pips cannot pass.

Once tried it will supersede all old-fashioned appliances. **Over a million** sold already. Patented in India and all leading countries. It is to be had at most Stores in India. Should you be unable to obtain one, the Proprietor will send one post free to any part of India on receipt of 2s., or 6 for 10/4.

"This preparation of value is founded upon sound chemical and physiological principles. While pepsine is the natural solvent of digestion for nitrogenous aliments, it has little or no effect upon the feculent constituents which enter so largely into the composition of the food of man; and there is no doubt that some of the disorders of digestion arise from thereal assimilation of the starchy elements. Now the proper digestive for these is diastase; and in the bi-digestive wine, of M. Chassaing, these two most important principles, pepsine and diastase, are combined in suitable proportions." — *See* THE LANCET, July 27 th, 1872.

IMPORTANT TO OWNERS OF HORSES AND DOGS.

Copy of letter from Captain G. TODD, Kingston Vale, London, S.W.—"I had a horse with a very bad and infectious skin disease treated in ordinary manner without success, and I was at last advised to kill it, but a friend suggested trial of CALVERT'S CARBOLIC SOFT SOAP, with which, in warm water, I washed all over its body twice; when dry I rubbed in CALVERT'S CARBOLIC OIL. This entirely cured the horse, and the coat came on in a short time as soft and glossy as ever."

SORES ON DOGS.—"Seeing a question by "COLLISON" in your valuable paper, asking after a remedy for sores under his terrier's legs, I strongly recommend his trying CALVERT'S CARBOLIC OIL and CARBOLIC SOFT SOAP. I have a spaniel which was covered with sores, more particularly under his legs and behind his ears. I tried many things without effect to cure him, till one day I received a card from Messrs. F. C. CALVERT & CO., Manchester, about their Oil and Soap. I at once procured some of each, and applied them in the following manner:—I oiled the dog thoroughly all over, letting it stay two days, when I gave him a good washing with the Soap. The following morning I oiled him again, letting it stay on two more days, when I again washed him with the soap. The sores very quickly disappeared, and the dog in a short time had a coat as bright as a star. I have recommended the remedy to others, who have spoken highly of it."—"CAPTAIN," (Plympton, Devon).—Letter to *The Field*, March 20th, 1886.

L. C. P. ASTLEY, Esq. (Judge at Dog Shows), reports that he cured a Fox Terrier, in acute state of Red Mange, by use of CALVERT'S CARBOLIC SOFT SOAP, and he states that "it could not have had a more severe test."

Mr. W. L. RUMBALL, Birmingham (Dog Exhibitor) writes with reference to Calvert's Carbolic Soft Soap:—"I have had hundreds of Dogs, and used very many 'recipes' which have *all failed*. I consider it the best thing for all Skin Diseases, and that no kennel should be without it. I shall use nothing else, and shall strongly recommend it to my friends. It is worth a sovereign a pot."

A correspondent of *The Field* states that he dissolves Calvert's Carbolic Soft Soap in hot water, making the mixture fairly strong, and sponges his cattle twice a week with it, and they are never molested with Gadflies.

PRIVATE REPORT.—"I had a lot of young cattle which got full of vermin during the winter, and a single washing with your Carbolic Soft Soap effectually cleared them.

☞ The Soft Soap is also useful against Greasy Heel, and Mud Fever, Mange, or Insects on Animals, and it is used in Her Majesty's Kennels. Applied lightly outside the Ears of Horses, &c., it protects them from Fly attacks.

CALVERT'S CARBOLIC OIL is sold in 1/- and 2/- Bottles, also ¼, ½, and 1 Gallon Tins, 3/6, 6/-, and 10/6 each.

CALVERT'S CARBOLIC SOFT SOAP is sold in 1/- 1lb. Jars, 4 and 7lb. Tins, at 3/- and 5/- each; also in ½ cwt. Kegs, at special rates, quoted in response to enquiries.

—CALVERT'S CARBOLIC OINTMENT.—

NEVER BE WITHOUT

Suited to any Climate.—Free from Animal Fat.

Calvert's
Carbolic Ointment
POTS THIS SIZE
1½ each
A valuable remedy for Skin Eruptions, Chafed Skin, Sore Heads, Lips or Eyes, Burns, Scalds, Chilblains, Chapped Hands, Insect Bites, Indolent Ulcers, Piles, Bruises, Stings, Ear Ache, Rheumatic or Neuralgic Pains, Colds on Chest will usually be much benefited by the Local application of this Ointment.— It is nearly white, not sticky or unpleasant in odour.

Full Instructions for use with each pot.

Editor of "La Mode Illustree" says:—

"CALVERT'S OINTMENT is a charming acquisition to the Toilet table—it allays irritation, softens the skin of the hands, producing a delicate whiteness, entirely cures chaps or chilblains, heals burns speedily, and is one of the best preparations of its kind for various skin eruptions."

"European Mail" says:—

CALVERT'S OINTMENT should find a place in the Domestic Surgery of every household, for Materfamilias will derive from it incalculable assistance in the cure of those thousand and one ills that flesh is heir to."

W. C. FITZGERALD, Chemist, Wellington, New Zealand, writes:—"I would not be without your Ointment. It cures burns, scalds, and cuts with far less trouble than anything I ever used."

EPITOME OF PRIVATE REPORTS.

"It has much improved a very bad sore caused by burning ten years ago."

"A patient suffering from an indolent ulcer has found very great benefit from its use."

"I have found it an excellent remedy for unbroken chilblains."

CALVERT'S CARBOLIC OINTMENT

is a combination which not only possesses all the properties of an ordinary Ointment, but has, in addition, the powerful healing and antiseptic virtues of CARBOLIC ACID (or Phenol), its chief ingredient, which for many years has been recognised by the Medical Profession as the most useful agent known for the treatment of Wounds, Sores, &c., and by its composition in an Ointment Messrs. F. C. CALVERT & Co. have contrived a form which renders it a ready agent for popular use. It arrests all septic or putrefactive development, stimulates a healthy action of the skin, and thus assists nature to repair the ravages of disease or accident.

CARBOLIC ACID exerts a powerful action in arresting fungoid growth, therefore its use is indicated in most skin ailments, many of which baffled the skill of medicine before its discovery.

THE ONLY RELIABLE DISINFECTANTS ARE "CALVERT'S" Carbolic Acid AND PREPARATIONS.

No. 5, CARBOLIC ACID, in 1/- and 1/6 Bottles.
15 per cent. CARBOLIC DISINFECTING POWDER, in 6d., 1/- and 1/6 Decorated Tin Canisters.

☞ **Avoid low-priced imitations which are worthless, and see that you obtain "the only genuine products."**

CALVERT'S ANTI-MOSQUITO SOAP

A New & Special Preparation.

A splendid Soap to use in the morning tub. Suitable to the most sensitive skin (thus invaluable in the Nursery and for Ladies). Cooling, cleansing and agreeable. It is especially adapted for use in warm climates. Its properties safeguard the skin and are a preventive of the contagion of zymotic diseases, also the bites of Mosquitoes and other small insects.

6d. TABLETS AND 1/- BARS.

CALVERT'S INDIAN BATH SOAP

(REGISTERED.)

Guaranteed to contain 15 per cent of Carbolic Soap.

Owing to the high percentage of Carbolic Acid, it is liable to attract moisture, and it should be stored in a dry place.

Very useful to prevent or remedy Insect Bites or Stings, to cure Itch, Ringworm, or Mange, and to destroy Lice or other Insects.

Applied lightly it is cheap in using. When needful to use as a Lotion, dissolve one tablet in half a gallon of water.

It has good effect on Sores, "Malabar" or "Dhoby Itch," and most Skin Ailments, and would probably be of service if quickly and freely applied after animal or reptile bites.

SOLD IN 3d. TABLETS AND 1s. BARS.

The "LANCET," of January 1st, 1887, says:

"The necessity of keeping the teeth clean with a view to the prevention of FUTURE trouble is overlooked by too many."

* * * * * * *

It is often asked—"How soon should the first tooth brush be used?"

"As soon as there are teeth to use it upon," should be the reply.

CALVERT'S CARBOLIC TOOTH POWDER.

COPYRIGHT.

Is a very agreeable, safe and useful Dentifrice, pleasantly perfumed, made by a combination with the purest Medicinal Carbolic (much used by Dentists), which by its well-known antiseptic action, exerts a highly beneficial effect in preserving the Teeth, purifying the Breath, and strengthening the Gums; it is also of service as preventive of infection by inhalation.

From NEWTON CRANE, ESQ., late United States Consul, Manchester:—". . . Your Carbolic Tooth Powder is the best I ever used. In this opinion I am joined by all the members of my family."

Editor of *Public Health* writes:—"Persons using this Tooth Powder will derive great benefit from its antiseptic action—its disposition to preserve the teeth and strengthen the gums."

DR. E. M. HARRISON, of Queenstown, South Africa, writes:—"I congratulate you on the excellence of your Tooth Powder; it is a compound that nobody has been able to imitate, and also unique in the preservation of the teeth."

LIGHT-BROWN COD LIVER OIL
THE PUREST. THE MOST PALATABLE. THE MOST DIGESTIBLE.
THE MOST EFFICACIOUS.
Incontestably proved by Thirty Years' Medical Experience to be
The only Cod Liver Oil which produces the full curative effects in
CONSUMPTION AND DISEASES OF THE CHEST, THROAT AFFECTIONS, GENERAL DEBILITY, DISEASES OF THE SKIN, WASTING DISEASES OF CHILDREN, RICKETS, AND ALL SCROFULOUS DISORDERS.

SELECT MEDICAL OPINIONS.

DR. PROSSER JAMES,
Lecturer on Materia Medica, London Hospital.
"Dr. DE JONGH'S LIGHT-BROWN COD LIVER OIL contains the whole of the active ingredients of the remedy, and is easily digested. Hence its value, not only in Diseases of the Throat and Lungs, but in a great number of cases to which the Profession is extending its use."

DR. HUNTER SEMPLE,
Physician to the Hospital for Diseases of the Throat and Chest, London.
"I have long been aware of the great reputation enjoyed by the LIGHT-BROWN COD LIVER OIL introduced into medical practice by Dr. DE JONGH, and have recommended it with the utmost confidence. I have no hesitation in stating my opinion, that it possesses all the qualities of a good and efficient medicine. Its taste is by no means disagreeable, and might even be called pleasant. I have found Dr. DE JONGH'S OIL very useful in cases of Chronic Cough, and especially in Laryngeal Disease complicated with Consumption."

DR. SAUNDERS, C.B.,
Late Deputy-Inspector-General Army Hospitals, Superintendent of London Medical Mission.
"I have used Dr. DE JONGH'S LIGHT-BROWN COD LIVER OIL extensively among the sick poor of St. Giles's, and consider it a valuable remedy, especially in the Wasting Diseases of Children."

DR. WHITMORE,
Medical Officer of Health, St. Marylebone, London.
"My own somewhat lengthened experience as a Medical Practitioner enables me with confidence to recommend Dr. DE JONGH'S LIGHT BROWN COD LIVER OIL as being more uniform in quality, more certain in its effects, more palatable, and infinitely less likely to disagree with the stomach than the Pale Oil. If I were asked for an explanation of the marked success which for so many years has attended the administration of Dr. DE JONGH'S LIGHT-BROWN COD LIVER OIL, I should say that it is owing to its extraordinary medicinal, dietetic, and restorative properties, and which are found to exist in no other medicine that I am acquainted with, in such uniform combination."

Dr. DE JONGH'S LIGHT-BROWN COD LIVER OIL is supplied ONLY in IMPERIAL Half-Pints, Pints and Quarts, sealed with BETTS' Patent Capsule impressed on the top with Dr. DE JONGH'S Stamp, and on the side with his Signature, and the Signature of ANSAR, HARFORD & Co.; and bearing under the wrapper a Label with the same Stamp and Signatures.

SAD BUT TRUE.
THE HISTORY OF MANKIND CONVINCES US

That disasters are in reality stepping stones for higher progress. To prevent disastrous diseases from poisoned blood, use

ENO'S "FRUIT SALT."

No one can have a simpler and more efficient remedy. By its use the poison is thrown off, and the blood restored to its healthy condition by natural means. I used my FRUIT SALT freely in my last attack of Fever, and I have every reason to say it saved my life.—J. C. ENO.

Instead of being lowering to the system, ENO'S "FRUIT SALT" is in the highest degree invigorating. Its effect in relieving thirst, giving tone to the system, and aiding digestion is MOST STRIKING.

NO TRAVELLER SHOULD LEAVE HOME without a supply of ENO'S "FRUIT SALT," for by its use the most dangerous forms of fevers, blood poisons, &c., are prevented and cured. It is in truth a Family Medicine Chest in the simplest yet most potent form. It has a natural action on the organs of digestion, absorption, circulation, respiration, secretion and excretion, and removes all impurities, and hinders (by natural means) the unnatural and dangerous accumulation of fat. It keeps the body in healthy trim, by preserving and restoring health.

HEADACHE AND DISORDERED STOMACH.—"After suffering for years from severe headache and disordered stomach, and after trying almost everything without any benefit, I was recommended your 'FRUIT SALT,' and before I had finished one bottle I found it doing me a great deal of good, now I am restored to my usual health; and others I know that have tried it have not enjoyed such good health for years.—Yours most truly, ROBERT HUMPHREYS, Post Office, Barrasford."

THE ATLAS MOUNTAINS (MOROCCO), NORTH AFRICA.—Mr. Harold Crichton-Browne, in a letter from the Atlas Mountains, says:—"The Kaid of Demnet treated us so well that we desired, on leaving, to make him some acknowledgment, and presented him with . . . a bottle of ENO'S 'FRUIT SALT,' with which he was much pleased."—*The World*, September 12, 1888.

SUPERIOR TO ALL OTHER SALINES.—"Dear Sir,—Having been in the habit of taking your 'FRUIT SALT' for many years, I think it only right to tell you that I consider it a most invaluable medicine, and far superior to all other saline mixtures. I am never without a bottle of it in the house, as I find it possesses three most desirable qualities, namely, it is pleasant to the taste, promptly efficacious, and leaves no unpleasant after-effects.—A DEVONSHIRE LADY.—Jan. 25, 1889."

CAUTION.—*Legal Rights are protected in every civilised country. Examine each bottle and see that the Capsule is marked ENO'S "FRUIT SALT." Without it you have been imposed on by a* **WORTHLESS IMITATION.** *Sold by all Chemists, &c. Prepared only at*

Dr. Bright's Phosphodyne
Is a marvellous medicine for renovating impaired and broken-down constitutions. It operates on the system without exciting care or thought upon the individual as to the process. It moves the lungs, liver, kidney, stomach and intestines, with a harmony, vigour, yet, mildness unparalleled in medicine.

Dr. Bright's Phosphodyne
Gives back to the human structure, in a suitable form, the phosphoric or animating element of life, which has been wasted, and at once imparts new energy and life to the enfeebled constitution.

Dr. Bright's Phosphodyne
Is patronized by Aristocracy and the *Elite*, extensively used in the Army and Navy, and highly recommended by the leading Medical Practitioners.

☞CAUTION.—DR. BRIGHT'S PHOSPHODYNE.

The ONLY Medicine of that name granted certificates by Her Majesty's Registrar of Trade Mark. Beware of VILE, worthless Imitations made up to trade upon the Reputation of Dr. BRIGHT'S PHOSPHODYNE. Therefore ask for DR. BRIGHT'S and refuse Useless Substitute.

DR. BRIGHT'S WORLD-RENOWNED PHOSPHODYNE
Is sold in CASES at 6s. 6d. by all Medicine Vendors throughout the Globe.
Full Directions for use in 18 Languages accompany each case.
